

ECOPERLA

ECOPERLA MAESTRO REVERSE OSMOSIS

DESCRIPTION

Ecoperla Maestro is a true virtuoso among reverse osmosis systems. It removes bacteria, minerals, pesticides, microplastics and other contaminants, while at the same time being characterized by a low rejection. The lack of the need to connect a filter to the installation allows for direct storage of waste, which can be used for utility purposes. The water heating function ensures maximum comfort of using tap water, and the functional interface on the housing makes it easy to use the device.

CHARACTERISTICS

- 3-in-1 multi-purpose filter cartridge
- Low water rejection
- Countertop design with no need for permanent installation
- Modern design and compact size
- Function of heating water to the selected temperature
- Quick and easy cartridge replacement with a key
- Intuitive interface with touch buttons on the housing
- Parental lock
- Cartridge usage control
- Tap water change indicator in the tank
- Magnetic cup holder to protect your countertop from spills

TECHNICAL SPECIFICATIONS

Filter dimensions (w/s/g)	35,1 x 21,5 x 34,7 cm
Membrane	75 GPD
Temperature (min/max)	5/38 °C
Tank	4 l
Power	2100 W
Voltage	220 V/50Hz
