

# ECOPERLA

## ECOPERLA ROSA REVERSE OSMOSIS

---

### DESCRIPTION

The EcoPerla Rosa reverse osmosis system filters drinking water in households. There are two options of water intake. The first one is using purified water (free from chlorine, bacteria and viruses), perfect for cooking and drinking. The other one is water for direct consumption with health-promoting properties, enriched with a high concentration of magnesium and high pH.

### CHARACTERISTICS

- Compact and aesthetic housing
- Highly efficient osmotic membrane
- Highly efficient cartridges with long operating life
- EcoPerla Elixir water revitalising cartridge

## TECHNICAL SPECIFICATIONS

Filter dimensions (H/W/D)	36,5 x 40,5 x 21,5 cm
Tank dimensions (H/DIA)	42 x 28 cm
Membrane	100 GPD
Efficiency	378 l/dobę, 16 l/h
Tank volume	16 l
Pressure (min/max)	2,5/6 bar
Temperature (min/max)	2/40 °C
